

Fully compliant with IMO Guidelines, ABS e-Certificates will reduce administrative burdens, lessen onboard clutter and simplify Flag State validation.

ADOPT E-CERTIFICATES IN THREE EASY STEPS:

1. Verify that your Flag State accepts e-Certificates

- Please contact the vessel's Flag Admin office to verify that the Flag state accepts e-Certs

2. Tell us you want to enroll in e-Certificates

- Contact your local ABS office and we will setup your enrollment

3. Request e-Certificates issuance

- Contact the appropriate ABS port office to arrange for vessel attendance and the issuance of e-Certificates
- Normal survey attendance fees will apply

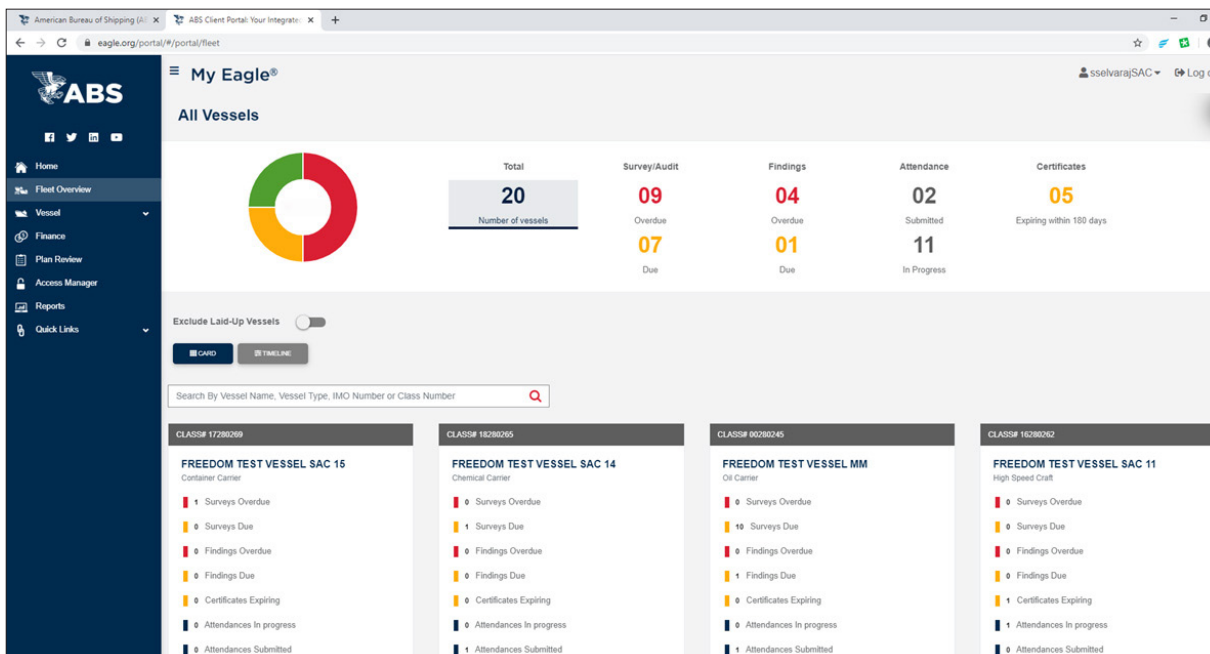

VIEWING YOUR E-CERTIFICATES IS SIMPLE

Access your secure e-Certificates through the My Eagle portal to download, print and share via email, eliminating paper binders and missing documents.

While e-Certificates may be printed, paper copies should only be used for reference purposes. The e-Certificate in its digital form is the valid certificate.

HOW TO ACCESS YOUR E-CERTIFICATES SECTION

- a. Log in to the My Eagle portal; contact your local ABS office if you do not have a login
- b. Select a vessel from your fleet

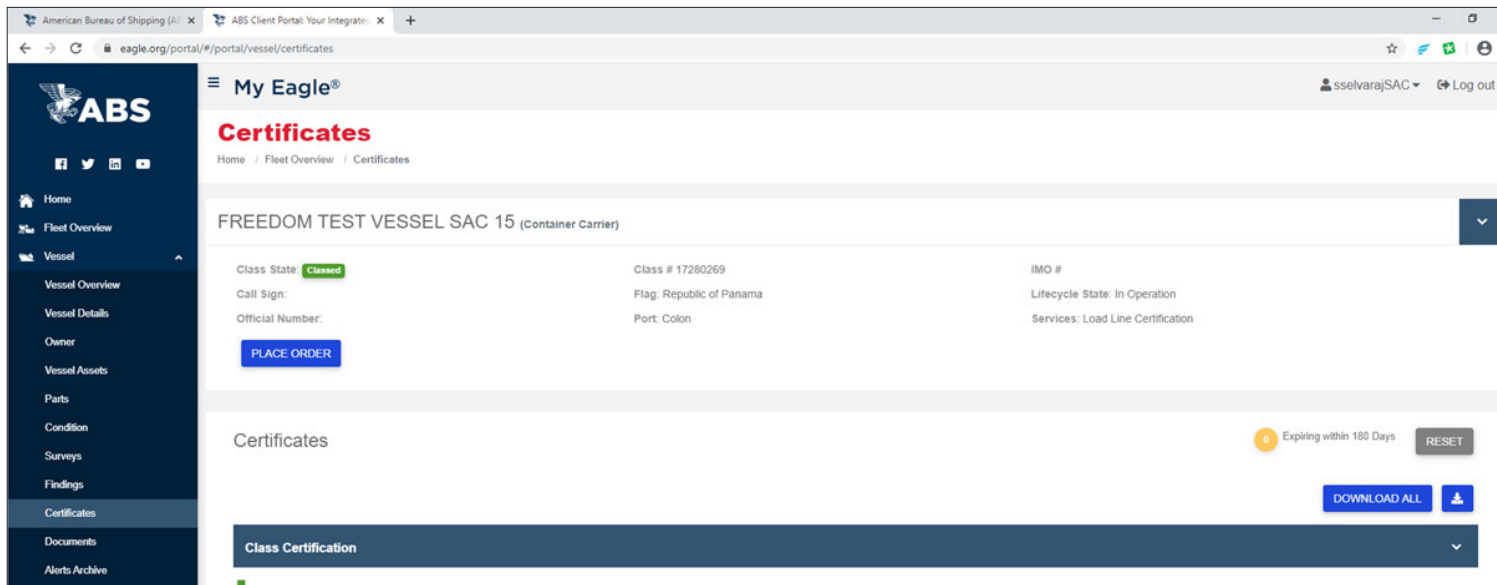

The screenshot displays the 'My Eagle' portal interface. The top navigation bar includes the ABS logo and user information (ssolvaraj/SAC). The main content area is titled 'All Vessels' and features a donut chart and a summary table. The summary table shows the following data:

Total	Survey/Audit	Findings	Attendance	Certificates
20 Number of vessels	09 Overdue 07 Due	04 Overdue 01 Due	02 Submitted 11 In Progress	05 Expiring within 180 days

Below the summary table, there is a search bar and a list of vessel cards. Each card displays the vessel name, class number, and a list of status indicators (e.g., Surveys Overdue, Surveys Due, Findings Overdue, Findings Due, Certificates Expiring, Attendances In progress, Attendances Submitted).

c. Navigate to the certificates page

d. Locate the desired Certificate (in this case we are looking at the Class Certificate)

*Note that the Certificate has been annotated with "ECC" to identify it as a compliant electronic certificate

e. Select the checkbox and click on the download button to download and view the certificate

f. You will see that your e-certificate has been electronically signed and marked as secure. This verifies the e-certificate meets IMO FAL.5 Circ.39/Rev.2 requirements, and has not been altered since issuance.
