

ABS ASPIRE PROGRAM

The Aspire Program is a cohort-based training geared toward upcoming graduates with a **naval architecture or engineering (civil, structural, mechanical, electrical, ocean or marine) degree**. Selected candidates join ABS as full-time employees of a 12-month rotational experience covering areas such as engineering, technology, survey and business support functions.

Following rotational training, these individuals kick off their careers with ABS in a profession related to their training, education and career goals in North America, South America, Europe or Asia.

The Aspire Program Promotes:

- ☒ Skills and Development
- ☒ Broader Business Knowledge
- ☒ Networking
- ☒ Performance Goals
