

Fully compliant with IMO Guidelines, ABS e-Certificates will reduce administrative burdens and simplify Flag State verification.

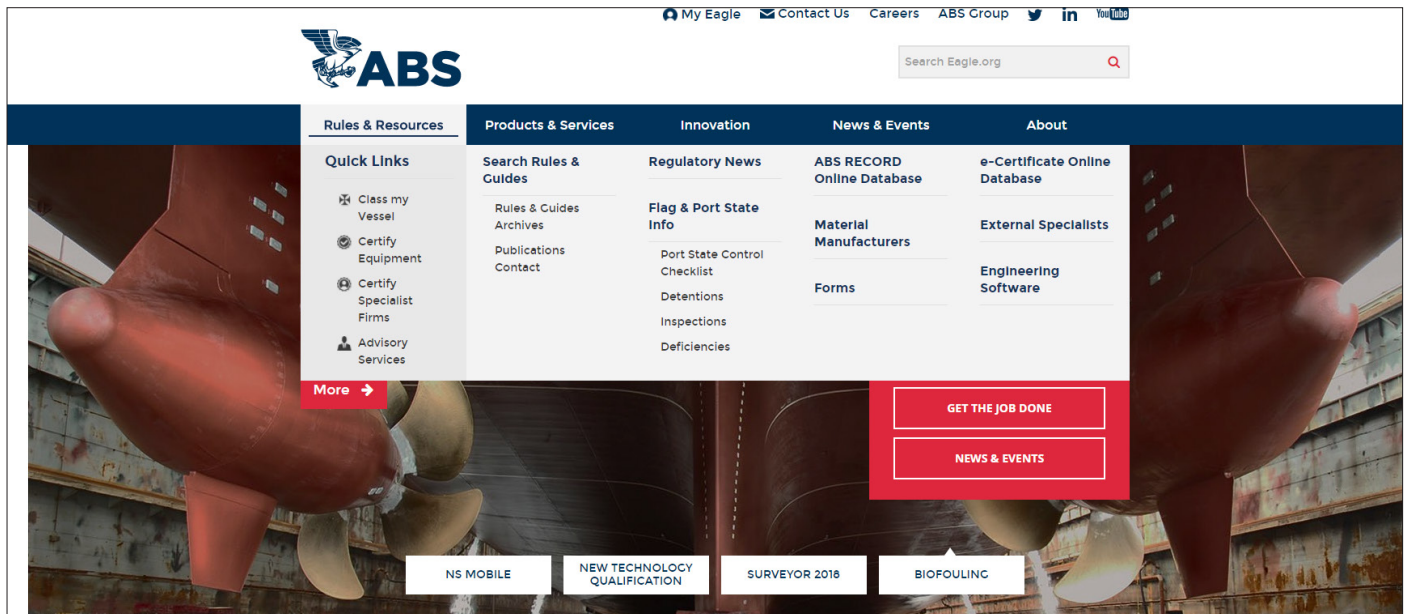

ABS has established a public site where anyone can look up and validate any ABS e-Certificate either by the vessel IMO number or the certificate number.

PUBLIC ACCESS FOR QUICK VALIDATION OF E-CERTIFICATES

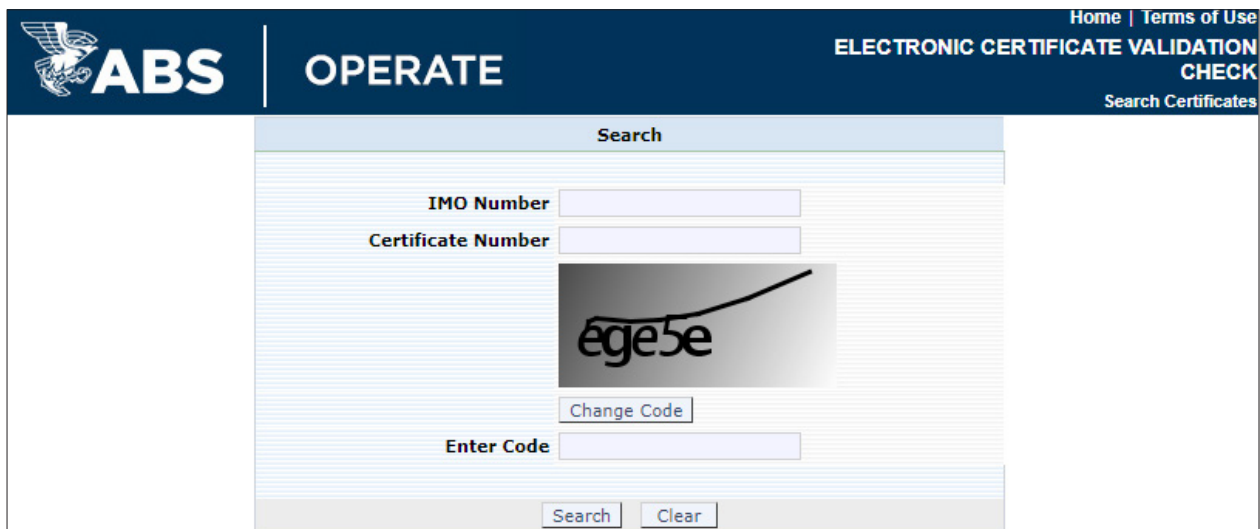

The authenticity, originality and traceability of the e-Certificates are easily verifiable.

HOW TO VALIDATE AN E-CERTIFICATE

1. Go to www.eagle.org and navigate Rules & Resources → e-Certificate Online Database
 - a. Direct access visit https://www.eagle.org/safenet/certificate/certificate_lookup

2. Enter the IMO Number or ABS Certificate Number

The screenshot shows the 'OPERATE' page on the ABS website. The page has a dark blue header with the ABS logo and the word 'OPERATE'. To the right of the header, there are links for 'Home' and 'Terms of Use', and the text 'ELECTRONIC CERTIFICATE VALIDATION CHECK' and 'Search Certificates'. The main content area is a search form titled 'Search'. It contains two input fields: 'IMO Number' and 'Certificate Number'. Below these fields is a large grey button with the 'eagle' logo. Underneath the logo is a 'Change Code' button. At the bottom of the form is an 'Enter Code' input field. At the very bottom of the page are two buttons: 'Search' and 'Clear'.

3. The certificate and its history of electronic endorsements will be displayed. In the event that a certificate is not authentic or valid, an alert message will be displayed.

MANAGING YOUR E-CERTIFICATES WITH MY EAGLE

While e-Certificates may be printed, paper copies should only be used for reference purposes. The e-Certificate in its digital form is the valid certificate.

HOW TO ACCESS YOUR E-CERTIFICATES

- a. Login to the My Eagle portal. If you do not have a login, contact your local ABS office.
- b. Select a vessel from your fleet. Click the vessel name to open in Survey Manager.
