

BECOME AN ABS RECOGNIZED SERVICE SUPPLIER

Service Suppliers play a vital role in supporting the global marine and offshore industries. By providing specialized technical services to equipment manufacturers, shipyards, shipowners and other maritime stakeholders, they help to support the safety, reliability, and compliance of vessels and offshore assets.

ABS Certification reinforces that a company's services meet the standards required for classification and/or statutory surveys, as well as for equipment manufacturing, inspection, testing and maintenance activities.

The ABS Service Supplier Program validates that your organization meets the applicable ABS Rules and guidance requirements.

WHAT ABS OFFERS THROUGH THIS PROGRAM

ABS provides a structured evaluation and recognition service that includes:

- ✓ Technical documentation review
- ✓ Facility and quality system assessment
- ✓ Personnel qualification verification
- ✓ Performance evaluation through practical demonstration
- ✓ Issuance of a Recognition Certificate (valid for 3 years)
- ✓ Listing in the ABS Global Service Supplier Database

The service supplier approval process indicates that your company has met the qualifications required to empower ABS surveyor decisions.

SERVICE CATEGORIES ELIGIBLE FOR ABS RECOGNITION

The following categories represent a selection of services eligible for ABS recognition and does not represent a complete list.

Regulatory and Statutory Services (IACS UR Z17)

A full, up-to-date list of services we provide is available at www.eagle.org/servicesuppliers

BENEFITS OF ABS SERVICE SUPPLIER RECOGNITION

Becoming an ABS Recognized Service Supplier allows your company to:

- Demonstrate a strong commitment to safety and quality
- Be featured in the ABS Global Service Supplier Database
- Enhance visibility across a global customer network
- Demonstrate conformity with industry and ABS Rules, regulations and standards
- Validate technical expertise and service capabilities

ABS GLOBAL SERVICE SUPPLIER DATABASE

All recognized suppliers are listed in the ABS Global Service Supplier Database, which provides a centralized platform for clients and ABS surveyors to locate approved companies. The database allows users to search for suppliers and view key information, including:

- Company profile and contact information
- Service categories and approval scope
- Certificate details and validity
- Assigned ABS port office
- Search by service type
