

CREW AND PAYROLL MANAGER

The ABS Nautical Systems® (NS) Crew and Payroll Manager system module supports a comprehensive workforce management process for scheduling and compensation of crew, plus training and qualifications tracking.

COMPREHENSIVE WORKFORCE MANAGEMENT

NS Crew and Payroll Manager enables tracking of inspection, meetings and drill participation onboard, during sign-on and sign-off and while integrated with NS HSQE and Vetting Manager. NS Crew and Payroll Manager makes it easy for owners and operators to schedule qualified crew at the right time to reduce cost and drive compliance.

NS CREW AND PAYROLL MANAGER CAPABILITIES

One-Click Access to Critical Information

- Intuitive dashboards provide simple and efficient access to all the information needed to manage a safe and qualified crew

- Interactive drag-and-drop crew scheduler allows easy assignment of qualified crew with a single click, including automated validation of crew qualifications

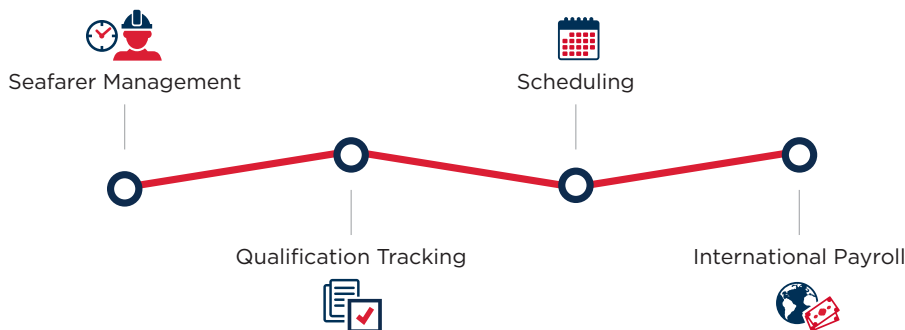

Seafarer Management

- Supports management and tracking of licenses, endorsements, visas, certifications and training
- A complete employment history with performance review capabilities fosters successful and productive career management practices to increase retention
- Supports work order completions, checklist-based inspections, on-board meetings and drills, audits, sign-on and sign-off of crew and document delivery
- Master's General Account transaction management and reconciliation

ABOUT ABS NAUTICAL SYSTEMS

Today, owners and operators in the marine and offshore industries are facing more challenges than ever – a changing workforce, a constantly evolving regulatory environment and an uncertain economic outlook. Achieving operational efficiency while maintaining compliance is critical to success.

At ABS Nautical Systems, maritime and offshore are our focus. Our software design, implementation approach, industry expertise and ongoing support reflect a deep history in the maritime sector. We offer a unique understanding of the challenges in the marine business supported by the depth and breadth of experience of ABS. ABS Nautical Systems offers powerful solutions for a complex world, with asset management and compliance software that solve real problems for real mariners.

International Payroll Management

- Fully compliant global gross-to-net payroll system developed specifically for the challenges of maritime industry pay
- Easily adapts to international payroll requirements, such as earnings and deductions, union contributions, tax deductions, provident fund contributions and slops/bonded stores

NS Software Integration

- Integration with the NS HSQE and Vetting Manager system module merges crew and safety management into a seamless process that leads to a reduction in lost-time injuries

Third-Party Software Integration

- Integrates with financial and accounting systems, enterprise HR and ERP systems, payroll tax payments and reporting and union contributions

Compliance

- Supports compliance with ISM, STCW, ILO/MLC 2006, TMSA, SubM, TSMS, RCP and Port and Flag state regulations
- Supports ILO-MLC and union contract payment and reporting requirements, as well as ILO-MLC crew rest/work hours tracking and reporting

THE NS DIFFERENCE

Role-Based Controls

Role-based controls enforce process and approvals.

Work Offline

Offline capability allows work to be done anytime with automatic syncing to the office when connectivity is available.

Ship and Shore Collaboration

Replication to enable real-time visibility to every vessel, as well as the entire fleet.

KPIs

KPIs enable one-click quick access to critical tasks and management actions.

Custom Forms and Questionnaires

Flexible questionnaires and custom forms capture customized data sets for trending and analysis.

NS Cloud

An easy and cost-effective option for implementation, deployment and management of the Nautical Systems software.

NS Autologger

Improve accuracy with

- Real-time data capture directly from ship automation systems and sensors
- Secure marine-grade appliances
- Improved accuracy of logged data
- Automated import of data to NS systems
