DOCUMENT MANAGER

The ABS Nautical Systems® (NS) Document Manager System (DMS) module integrates with all NS system modules for management, distribution and control of critical safety and operational documentation. NS DMS ensures required documentation is easily accessible and shared appropriately.

SHIP TO SHORE TO PERSON

Companies need to maintain, control and distribute documentation to ensure compliance and drive efficiency. NS supports the efficient and proactive management of documentation, allowing you to distribute information to those who need it, and track receipt acknowledgement—enabling efficiency and productivity throughout the organization. Tight integration with all NS system modules facilitates easy access to relevant information at all times.
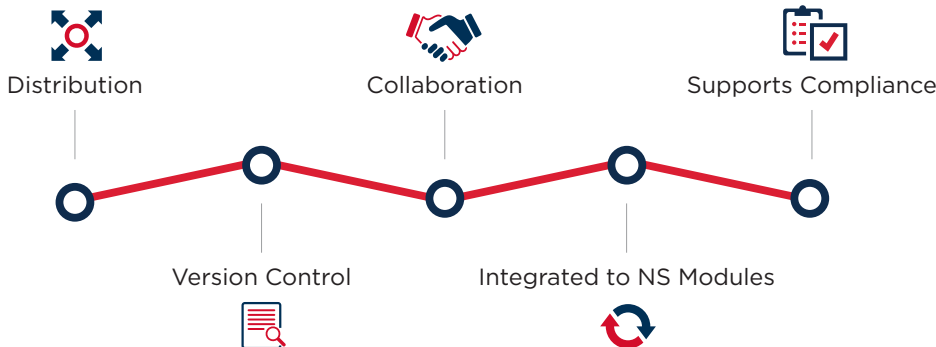

NS DOCUMENT MANAGER CAPABILITIES

- Delivers relevant documents to specific tasks when fully integrated into the NS process workflow
- Maintains full traceability/history of a document from initial draft to final distribution, including revision history
- Enforces version control
- Enables compliance by storing and distributing key regulatory publications
- Stores documents centrally in a searchable folder hierarchy

ABOUT ABS NAUTICAL SYSTEMS

Today, owners and operators in the marine and offshore industries are facing more challenges than ever – a changing workforce, a constantly evolving regulatory environment and an uncertain economic outlook. Achieving operational efficiency while maintaining compliance is critical to success.

At ABS Nautical Systems, maritime and offshore are our focus. Our software design, implementation approach, industry expertise and ongoing support reflect a deep history in the maritime sector. We offer a unique understanding of the challenges in the marine business supported by the depth and breadth of experience of ABS. ABS Nautical Systems offers powerful solutions for a complex world, with asset management and compliance software that solve real problems for real mariners.

Distribution • Version Control • Collaboration • Integrated to NS Modules • Supports Compliance

- Easily distributes OEM manuals, circulars, bulletins and vessel drawings
- Controls distribution of documents by vessel, vessel type, role or user
- Tracks ship-to-shore acknowledgement by user
- Utilizes advanced search queries by author, audience, data, vessel or vessel type
- Allows easy access and management via web interface
- Integrates seamlessly with all NS Enterprise modules

THE NS DIFFERENCE

Role-Based Controls
Role-based controls enforce process and approvals.

Work Offline
Offline capability allows work to be done anytime with automatic syncing to the office when connectivity is available.

Ship and Shore Collaboration
Replication to enable real-time visibility to every vessel, as well as the entire fleet.

KPIs
KPIs enable one-click quick access to critical tasks and management actions.

Custom Forms and Questionnaires
Flexible questionnaires and custom forms capture customized data sets for trending and analysis.

NS Cloud
An easy and cost-effective option for implementation, deployment and management of the Nautical Systems software.

NS Autologger
Improve accuracy with

- Real-time data capture directly from ship automation systems and sensors
- Secure marine-grade appliances
- Improved accuracy of logged data
- Automated import of data to NS systems
