

ON-DEMAND REPORTING

The ABS Nautical Systems® (NS) On-Demand Reporting (ODR) system module provides a powerful interface to create management reports, visualize analytics and fully leverage information for decision support. NS ODR offers easy-to-use data extracts for custom analysis and simplified reporting, as well as an extensive suite of standard and dynamic reports and reporting database views.

MAKING DATA ACCESSIBLE

Unified reporting and data hold the key to a more efficient business. NS ODR brings together standard reports and powerful and flexible interactive data sets to enable users to create custom views of data, tailored reports and extracts of data for further analysis. NS ODR makes informed decision-making and continuous improvement easy by empowering your team to make sense of operational data.

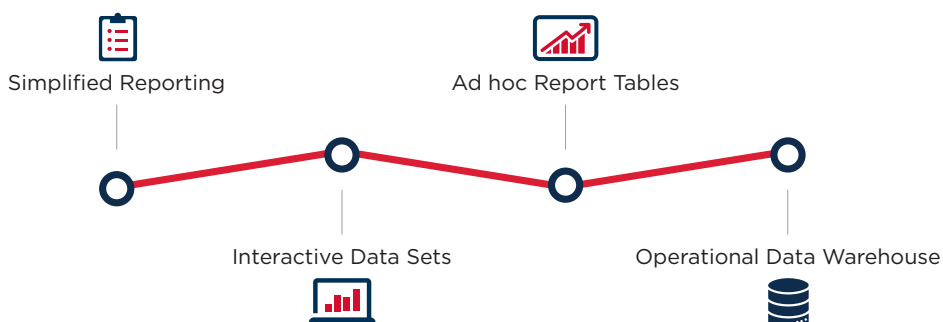

NS ODR CAPABILITIES

- Leverage transactional data to create actionable information for management reporting, analytics and decision support
- Access continuously and automatically updated data
- Easily sort, filter and download interactive data sets for each NS document type to Microsoft Excel or other tools
- Save customized data sets for easy retrieval
- Access all system and customer reports in one unified menu

ABOUT ABS NAUTICAL SYSTEMS

Today, owners and operators in the marine and offshore industries are facing more challenges than ever – a changing workforce, a constantly evolving regulatory environment and an uncertain economic outlook. Achieving operational efficiency while maintaining compliance is critical to success.

At ABS Nautical Systems, maritime and offshore are our focus. Our software design, implementation approach, industry expertise and ongoing support reflect a deep history in the maritime sector. We offer a unique understanding of the challenges in the marine business supported by the depth and breadth of experience of ABS. ABS Nautical Systems offers powerful solutions for a complex world, with asset management and compliance software that solve real problems for real mariners.

- Schedule system and customer reports for automated delivery
- Report Grouping function helps support compliance objectives (e.g., TMSA, SubM, etc.)
- Customize reports using the built-in SQL reporting tool and reporting tables
- Use NS reporting tables as a data warehouse, or easily extract to an enterprise data warehouse
- Seamlessly integrated with all NS system modules

THE NS DIFFERENCE

	<p>Role-Based Controls Role-based controls enforce process and approvals.</p>
	<p>Work Offline Offline capability allows work to be done anytime with automatic syncing to the office when connectivity is available.</p>
	<p>Ship and Shore Collaboration Replication to enable real-time visibility to every vessel, as well as the entire fleet.</p>
	<p>KPIs KPIs enable one-click quick access to critical tasks and management actions.</p>
	<p>Custom Forms and Questionnaires Flexible questionnaires and custom forms capture customized data sets for trending and analysis.</p>
	<p>NS Cloud An easy and cost-effective option for implementation, deployment and management of the Nautical Systems software.</p>
	<p>NS Autologger Improve accuracy with</p> <ul style="list-style-type: none"> • Real-time data capture directly from ship automation systems and sensors • Secure marine-grade appliances • Improved accuracy of logged data • Automated import of data to NS systems
