

## NS WORKBOAT

The ABS Nautical Systems® (NS) Workboat mobile application, a first-of-its-kind mobile solution designed specifically for the workboat sector, supports day-to-day operations onboard and decision making onshore.

### ACCURACY ON BOARD. TRANSPARENCY IN THE OFFICE

NS Workboat was designed to assist crews with daily standard tasks while capturing data for Subchapter M compliance. The easy-to-use application comes pre-configured on a tablet, requires very little training and does not require any installed software on board. Furthermore, NS offers a turnkey implementation so users can be up and running quickly.

The data captured on board for compliance can also provide valuable insights in the office. Manage your fleet with confidence by taking advantage of data to make better operational decisions and improve performance.

### NS WORKBOAT CAPABILITIES

#### Mobile Enabled

- Optimized for a tablet, available on your smartphone and no software is required to be installed on board
- Designed in the familiar style of smartphone apps thus reducing training needs
- Easy data entry onboard

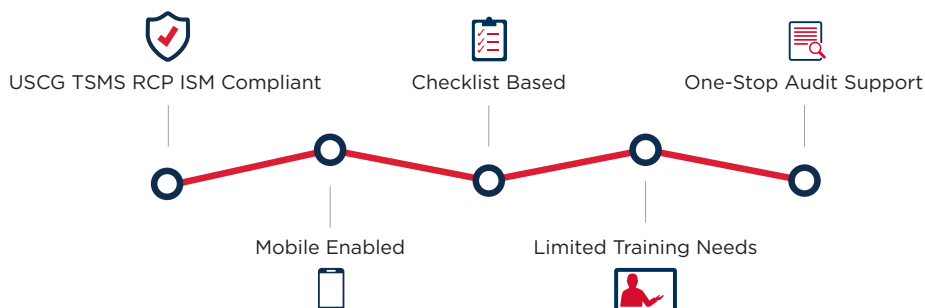

#### Intuitive Functionality

- Supports work order completions, checklist-based inspections, on-board meetings and drills, audits, sign-on and sign-off crew and document delivery
- Identify critical equipment history for inspections and audits

## ABOUT ABS NAUTICAL SYSTEMS

Today, owners and operators in the marine and offshore industries are facing more challenges than ever – a changing workforce, a constantly evolving regulatory environment and an uncertain economic outlook. Achieving operational efficiency while maintaining compliance is critical to success.

At ABS Nautical Systems, maritime and offshore are our focus. Our software design, implementation approach, industry expertise and ongoing support reflect a deep history in the maritime sector. We offer a unique understanding of the challenges in the marine business supported by the depth and breadth of experience of ABS. ABS Nautical Systems offers powerful solutions for a complex world, with asset management and compliance software that solve real problems for real mariners.

- Reporting on hazardous conditions, behavior-based safety items, equipment failures and audit and inspection deficiencies
- Unified task list directs crew activity based on office requirements
- Drag-and-drop crew scheduler with qualifications
- Visibility into crew work rest hours
- Maintain electronic towing vessel record
- Fleet calendar view compliance plan
- Update key operational information such as equipment running hours and spares inventory
- Minimal upfront investment required, turn-key implementation available

### NS Software Integration

- Integration with NS Maintenance Manager, NS Purchasing Manager, NS HSQE and Vetting Manager and NS Crew and Payroll Manager system modules, as well as DMS, ODR and Custom Forms (pre-configured on a tablet) provides one-stop audit support

### Compliance

- Enables United States Coast Guard (USCG) Subchapter M compliance from day one
- Supports compliance with ISM, STCW, TMSA, SubM, TSMS, RCP and Quality systems [ISO 9001, 14000, etc.]

## THE NS DIFFERENCE

	<p><b>Role-Based Controls</b> Role-based controls enforce process and approvals.</p>
	<p><b>Work Offline</b> Offline capability allows work to be done anytime with automatic syncing to the office when connectivity is available.</p>
	<p><b>Ship and Shore Collaboration</b> Replication to enable real-time visibility to every vessel, as well as the entire fleet.</p>
	<p><b>KPIs</b> KPIs enable one-click quick access to critical tasks and management actions.</p>
	<p><b>Custom Forms and Questionnaires</b> Flexible questionnaires and custom forms capture customized data sets for trending and analysis.</p>
	<p><b>NS Cloud</b> An easy and cost-effective option for implementation, deployment and management of the Nautical Systems software.</p>
	<p><b>NS Autologger</b> Improve accuracy with</p> <ul style="list-style-type: none"> <li>• Real-time data capture directly from ship automation systems and sensors</li> <li>• Secure marine-grade appliances</li> <li>• Improved accuracy of logged data</li> <li>• Automated import of data to NS systems</li> </ul>

**POWERFUL | SIMPLE | RELIABLE**
