

ABS GLOBAL GAS SOLUTIONS

ABS is the world's premier classification society for gas carriers with more than 50 years of experience classing gas carriers of every type and size and specializing in the transport of liquefied natural gas (LNG) and liquefied petroleum gas (LPG).

Shipowners and operators take confidence in the knowledge that carriers classed by ABS are held to the highest standards of safety, regulatory compliance and construction quality.

The **ABS Global Gas Solutions team** provides industry leadership, offering guidance in liquefied natural gas (LNG) floating structures and systems, gas fuel systems and equipment, gas carriers, and regulatory and statutory requirements. The team also offers specification reviews, risk and hazard assessments, bunkering suitability reviews, project management for new construction and feasibility studies.
