Part	1	Rules for Conditions of Classification
Chapter	1	Scope and Conditions of Classification
Section	2	Suspension and Cancellations of Classification
7	1-1-2/7.9	<p>Align second-to-last paragraph, bullets, and last paragraph as follows:</p> <p>“Class is automatically suspended and the Certificate of Classification is invalid in any of the following circumstances:</p> <p><i>i)</i> (1 July 2005) If the Annual Survey is not completed by the date which is three (3) months after the due date, unless the craft is under attendance for completion of the Annual Survey, or</p> <p><i>ii)</i> (1 July 2005) If the Intermediate Survey is not completed by the date which is three (3) months after the due date of the third Annual Survey of the five (5) year periodic survey cycle, unless the craft is under attendance for completion of the Intermediate Survey, or</p> <p><i>iii)</i> If the Special Periodical Survey is not completed by the due date, unless the craft is under attendance for completion prior to returning to service.</p> <p>(1 July 2005) Under “exceptional circumstances” (limited to such cases as unavailability of drydocking facilities; unavailability of repair facilities; unavailability of essential materials, equipment or spare parts; or delays incurred by action taken to avoid severe weather conditions), consideration may be given for an extension of the Special Periodical Survey not exceeding three (3) months, provided the craft is attended and the attending Surveyor(s) so recommend(s) after the following has been carried out:</p> <ul style="list-style-type: none"> • Annual Survey; and • Re-examination of recommendations; and • Progression of the Special Periodical Survey as far as practicable; and • In the case where drydocking is due prior to the end of the class extension, an underwater examination is to be carried out by an approved diving company. An underwater examination by an approved company may be dispensed with in the case of extension of Drydocking Survey not exceeding 36 months interval provided the craft is without outstanding recommendation regarding underwater parts. <p>(1 July 2005) If the craft is at sea on the Special Periodical Survey due date, consideration may be given for an extension of the Special Periodical Survey provided there is documented agreement to an extension prior to the due date, positive arrangements have been made for a Surveyor to attend the craft at the first port of call, and ABS is satisfied there is technical justification for an extension; such an extension shall be granted only until arrival at the first port of call after the due date. However, if owing to “exceptional circumstances” the Special Periodical Survey cannot be completed at the first port of call, the Rule above for an extension of the Special Periodical Survey may be followed, but the total period of extension shall in no case be longer than three (3) months after the original due date of the Special Periodical Survey.”</p>
