# How to Access U.S. Government Vessel Projects

U.S. government vessel projects are available through the **ABS MyFreedom™ Client Portal**. Clients with U.S. government–related projects will see two separate menu categories. To access these projects, follow these steps:

How to Access U.S. Government Vessel Projects	
1	Login to the <b>ABS MyFreedom™ Client Portal</b> .
2	Navigate to <b>Engineering</b> menu.
3	Projects and related information involving at least one U.S. government vessel are found under the ITAR menu on the right. Clicking any menu option redirects the user to the relevant section, provided they have the necessary access.
4	All projects, related drawings, findings, review letters, packages, quotes and oversight projects not involving a U.S. government vessel can be accessed under the <b>Commercial</b> menu on the left.
