

ABS MYFREEDOM™ CLIENT PORTAL

Extension of Approval

Step-by-step instructions to help you with the extension of approval.

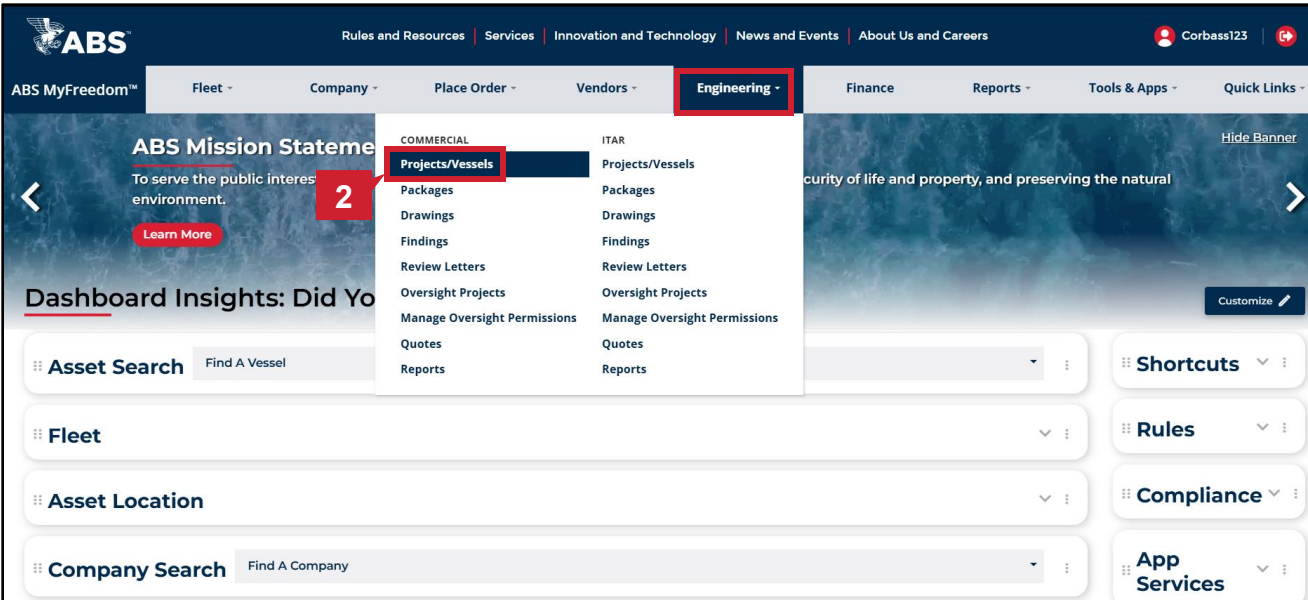

Submission of EOA Package

This workflow allows you to request an extension of previously approved drawings from an ongoing project or projects completed in the past with ABS (hereinafter, referred as **source project** in this guide), thereby eliminating the need for resubmission.

An EOA request links the drawings of source projects or their vessels to the current Extension of Approval (EOA) project (hereinafter, referred as the **target project**). The process begins when you submit a request for an EOA project.

1

On ABS MyFreedom™ Client Portal, select **Projects/Vessels** from the **Engineering** drop-down menu.

The following color codes are used to distinguish between User Action and Informational content:

Information

User Action

- 2

EOA projects are denoted with a green EOA flag, with an additional option to initiate the extension.
- 3

Click **EOA**.

Cancel

7Preview & Submit

Note:

- It may take longer than the expected time to load the drawings, as it is based on the volume of drawings available.
- Only drawings that you have submitted for the selected source project/s without any open technical findings are available for extension.

8

Verify the details and click **Submit**.
